

## GOOD ACCESS IS GOOD BUSINESS

### Customer Access<sup>1</sup> Checklist for Late Night Entertainment Venues

The City of Melbourne has introduced the 'Good Access is Good Business' publications and education program to support city businesses to meet the legal (Disability Discrimination Act 1992) and community expectations of fair access for all members of the community to all goods, services, entertainment and recreational opportunities available within the city.

This self-assessment checklist has been developed to provide a guide to how accessible your late night entertainment venue is. This can also be used as a guide when planning improvements or when selecting premises to establish a late night entertainment venue.

## **CUSTOMER ACCESS PLAN**

Now you have completed the access checklist, you will have identified a number of areas where you are providing good access. You will also have identified areas that require access improvement.

You can now use this page to begin to develop a Customer Access Plan for your late night entertainment venue based on the answers you could not check YES in the Checklist.

Start by grouping access action you need to take, into the following areas:

- Action you can take now for little or no cost;
- Action you can take in the medium term that doesn't require renovation to your premises;
- Action you will need to take during a refurbishment or redevelopment of your premises to provide access for all.

Under the Building Code of Australia, you are required to provide access for people with disabilities in any renovation or redevelopment project.

If you don't own your premises, you can also start to talk to your landlord about the legal requirements of providing access for all, as they are also responsible under the DDA.

Please refer to the Good Access is Good Business publications and telephone 9658 9658 if you require additional copies or information.

### **Access Consultants**

There are a number of recognised disability access consultants who can conduct an access audit of your premises and provide you with specialist advice and assistance for developing an access plan.
