

Bedford Street Pocket Park: Delivering more open space in North Melbourne

City of Melbourne has started early works on Bedford Street Pocket Park – transforming the existing green spaces in Bedford and Courtney streets into a new park that will include a playspace and activities area.

What's been happening?

- Temporary fencing has been installed around the work site.
- Early drainage works have started on the corner of Queensberry and Peel streets.
- We have also started demolishing and removing some of the existing site.

Work site closure

The work site will close for a break over the New Year period from Wednesday 20 December 2023, and our team will return on Tuesday 2 January 2024.
