

Section

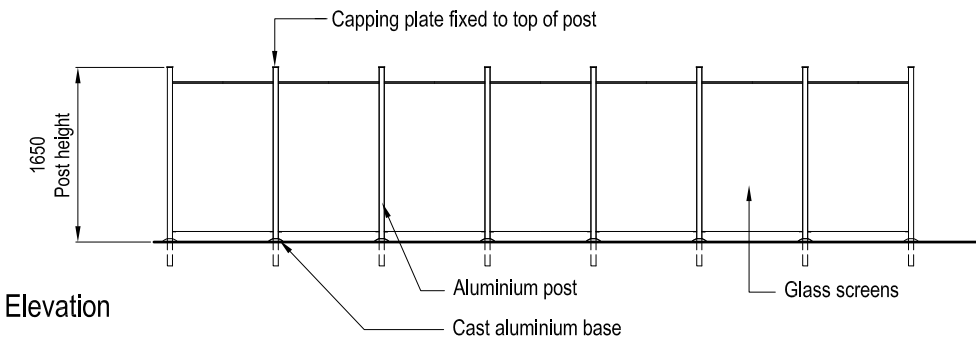

The outdoor cafe screen is used in selected main streets with high pedestrian use within the Central City, Docklands and selected areas throughout the municipality.

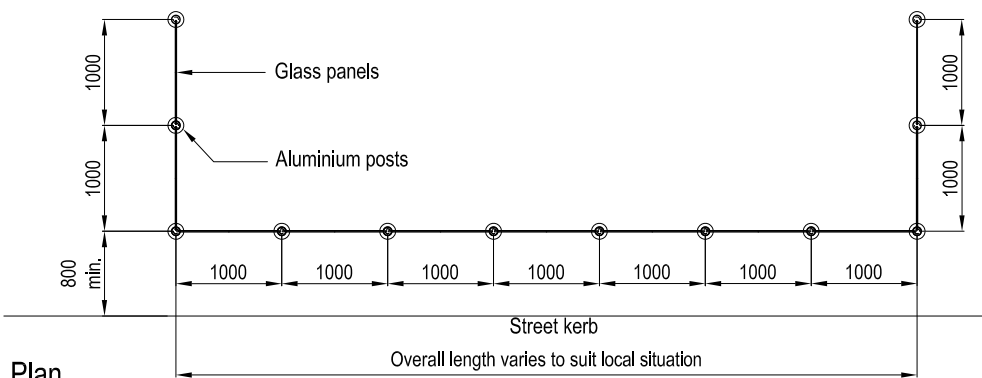

For siting and setback requirements, refer to the City of Melbourne Outdoor Cafe Guide 2008.

The cafe screen is fabricated using aluminium circular tube posts, and the screen panels are made of glass.

For fabrication & installation drawings, refer to City of Melbourne, City Design drawings; Project No: 903176_Cafe Screen
